This months match started out a little chilly just like last month, with the exception that it went down hill from there. Added to the cold temperature was a strong wind which made for some pretty nasty shooting conditions, and it's the first time in quite a while that we had to clamp the small bore targets so they would stand long enough for us to shoot at them. Bill Urbank shot a SB standing score of 24, and Phil McCullough knocked down 35 critters in Field Pistol PAS. Makes you wonder what they could have done under better conditions. Maybe we'll find out next month. Take care.
